

Add Research Incentive Distribution (ARID)

Update Research Incentive Distribution (URID)

Inquire Research Incentive Distribution (IRID)

Functions Documentation

Purpose:

The purposes of these functions is to **Add Research Incentive Distribution (ARID)**, **Inquire Research Incentive Distribution (IRID)**, or **Update Research Incentive Fund Distribution (URID)**.

ARID Function

ARID function is used to add new research incentive distribution (RID) information to an existing account (restricted funds only!). For the first fiscal year after implementation (2000/2001), it is permissible to add new RID records to a closed account. After 07/15/2001 this option will be closed, and then this function would only be available to use on active accounts.

> Note:

If RID record is added to a closed account, make sure that the closed date is correct. There can be a case when there is more than one closed account with the same account number and different closed dates. The right account can be chosen through BFND or BAAC functions.

The ARID function screen is displayed below (ARID Screen 1).

1. If the account is not entered in the NEXT ACCT# line, the message 'ENTER BUDGET AND FUND FOR RECORD RETRIEVAL' would be displayed.

```

> Note:

All research categories should be valid, the same category cannot be entered more than once, and the maximum number of categories for one account can be six categories.

After all categories are selected or entered on the screen, input SSN(s) of the PI(s) and percent(s) of incentive distribution for this person(s).

> Note:

Only SSN of the University employee can be used for this function; the same SSN cannot be used more than once.

Proceed the same way with the rest of the PIs participating in the project (ARID Screen 4).

PI(s) can be entered even if his/her incentive distribution for this account is 0%.

```

ARID Screen 4

After all information is filled on one screen, press the 'ENTER' key. Numbers and names would be inputted automatically and subtotals and totals by category and by SSN will be calculated.

Message " 'PF12 TO ADD — 'PF3' TO CANCEL — 'PF8' MORE SSN — 'PF6' MORE CATEGORIES" will be displayed at the top of the screen. (ARID Screen 5).

Press PF12 key to create a record. If the add should be canceled, press PF3. PF8 key will bring next page down, PF7 — previous page up. These keys should be used if there are more than eight PIs participating in the project (there is a maximum of 40 SSNs per account — five pages).

PF6 key will display next page to the right, PF5 — previous page to the left. These keys should be used if there are more than three categories for this project (maximum six categories — two pages).

> Important note:

ALWAYS press 'ENTER' key first before paging up/down or left/right. Otherwise, information entered on the previous screen will be lost!

```

ARID Screen 6

If the add was canceled, the message 'RID ADD WAS CANCELED. PRESS ENTER TO CONTINUE' will be displayed.

If research incentive distribution record already exists for an account, URID (update research incentive distribution) function should be used for changes or IRID (research incentive distribution inquiry) for inquiry.

URID Function

URID function is used to update an existing research incentive distribution record (RID). For the first fiscal year after implementation (2000/2001), it will be permitted to update RID records for a closed account. After 06/30/2001 this option will be closed, and this function would be used only for opened accounts. **It is only necessary to update those accounts that were open at some point during the 2000/2001 fiscal year.**

The URID function screen is displayed below (URID Screen 1). If the account number is not entered in the NEXT ACCT# line, the message 'ENTER BUDGET AND FUND FOR RECORD RETRIEVAL' will be displayed.

```
