

The WAGE Forms (WAPP, WUPD and WTER)

The new **WAGE** forms are designed to simplify the appointment, update and termination processes for wage employees. Please note that unlike other staff categories, these forms do not affect the employee's pay. You still have to submit a WAGC every two weeks in order for the employee to get paid.

The **WAGE** documentation is divided into the following four sections:

Use of the Wage Update Form: WUPD Cover Screen and Pages 1 & 2

The **Wage Update** (WUPD) form is used to update information about a wage employee. Possible reasons for updates might include a job description change, rate increase or change in background information. If the employee holds other wage positions in the University, this form will update certain fields so they can be viewed by all employing departments.

In the WUPD, you will be able to change any of the fields marked with numbers. The contents of WUPD are meant as an information supplement, and therefore will not duplicate the capabilities of another IBIS function. For example, a change of office address can be accomplished by a UADR and not the WUPD form.

 - The second set of numbers is automatically generated by WUPD.
 - The third set of numbers will default to 000 if the employee is either a Wage Staff Assistant or Wage Nonexempt Staff. If the employee will work in Technical Services, the last three digits should equal the employee's Human Resources Representative number.
12. At **Description of Duties**, list the employee's duties.
13. At **High Degree Information**, indicate the Highest Degree Received, the Date, the Institution, and the Discipline.
14. At **Military Service Information**, indicate the employee's Status, Branch, Discharge date and Discharge Reason.
